

WHY DIMO

DIMO is an open-source platform that is quickly growing to accommodate many different use cases while providing rewards and cost savings.

DIMO's connected vehicle platform allows users to connect their vehicles through either OEM software or a hardware device, which provides insights into various aspects of vehicle performance. The platform uses data analytics to analyze data from the vehicle, such as fuel consumption, engine performance, and driving behavior, and provides users with real-time insights and alerts. By offering this data to app developers, DIMO enables the creation of a wide range of innovative solutions that can help individuals and fleet owners to optimize their operations, reduce costs, and improve overall efficiency. The rewards program provides an extra incentive for users to contribute their data to the network, which can help to improve the quality and quantity of data available to app developers.

Instead of building 10 integrations, Developers can focus on creating new services that users actually want.

DIMO

Use DIMO data to know your vehicle value
Get the best deal when you trade in your car
... then connect your new ride to DIMO

THE FLEET

DIMO Rewards come down with time. Connect your Fleet, get ahead of the curve and have your hardware essentially paid for.

DIMO's connected vehicle platform is highly valuable to fleet or business owners. The platform provides real-time insights into fleet performance, including fuel consumption, engine performance, and driver behavior, allowing fleet managers to optimize routes, reduce fuel costs, and improve overall efficiency. Additionally, the platform's advanced diagnostic features can help to identify potential issues with fleet vehicles before they become major problems, reducing costly downtime.

- **Real-time insights:** View Fleet performance including location, fuel consumption and driver behavior.
- **DIMO Ecosystem Partners:** Access a range of additional services, including technical help, reports, refinancing, insurance, on-site repair.
- **Rewards:** With LowFi Crypto Management receive monthly discounts or a check in the mail by cashing in on your [\\$DIMO Rewards](#).
- **Bulk Order Discounts:** Receive bulk discounts.

Coming Soon:

- **Fleet Management Hub:** Manage all your vehicles in in one place.
- **Advanced Diagnostic Features:** Identify potential issues with fleet vehicles before they become major problems.
- **Improved Route Optimization:** Reduce Fuel Costs.
- **Dash Cam Monitoring:** Monitor inside and outside of the vehicle.
- **Customizable Reports and Analytics:** Data-driven decision-making.

Overall, DIMO's is a powerful tool for fleet or business owners, providing real-time insights and advanced diagnostics that can help to optimize fleet performance, reduce costs, and improve overall efficiency. The platform's customizable reports and open source connectivity also enable data-driven decision-making, making it an essential tool for businesses that rely on vehicle fleets or system integrations.

THE SERVICE PROVIDER

We work with dealerships, automotive service shops, and retailers to help them connect their customers with DIMO devices and services.

- By partnering with Lowfi and DIMO, businesses can increase their customer satisfaction, while creating a new revenue stream. Our team provides personalized support, product updates, and training to ensure these businesses have everything they need to succeed. By connecting with DIMO, dealerships, automotive service shops, and retailers can differentiate themselves from their competition and offer their customers a truly valuable solution.
- **A New Offering:** Offer a Cutting Edge and Intuitive Connected Vehicle Solutions
- **A New Revenue Stream:** Earn New revenue streams via Hardware Sales, Support packages, and ecosystem integrations.

DIMO FOR SERVICES INTEGRATIONS

DIMO is an open-source platform, allowing any company to access its code or datasets to create new services or integrate with existing ones. This flexibility makes it easier for businesses to leverage DIMO's powerful vehicle insights and improve their own offerings.

DIMO's app marketplace provides access to connected vehicle data that app developers can use to build applications for predictive insights, diagnostics, and real-time monitoring of vehicle performance. The rewards program incentivizes users to contribute their data to the network, which can help improve the quality and quantity of data available to app developers. Through this process, DIMO aims to enable the development of innovative solutions that can help individuals and fleet owners optimize their operations and reduce costs.

If you are interested in building on or offering DIMO in stores email sales@lowfi.us. We will connect you with the correct contacts.
